

TAGGING AND PERMIT PROCEDURES

DO NOT attach your permit to the game.
Separate the transportation tag from your permit and attach it to the leg.
 Submit your permit at the check station.

Detaching the transportation tag invalidates the permit, so do not detach until immediately after harvest.

How to tell a Gobbler from a Hen

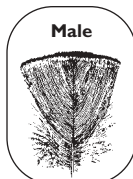

Large size, black body and long beard are marks of the gobbler. Hens sometimes have beards, but color, size and behavior distinguish them from gobblers. Hens are smaller, brown birds with blue heads. Bearded hens produce young and help increase the turkey population. They should not be killed, but any turkey with a clearly visible beard is legal in Missouri. Hens without beards are illegal and must not be killed. The future of our wild turkey hunting depends on you.

HEN

Breast feathers buff-tipped

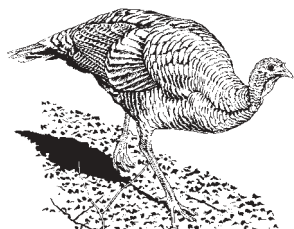

Female

Male

Breast feathers black-tipped

GOBBLER

mainly blue
 usually no beard
 appears rusty
 no spurs

HEAD

For complete hunting regulations, refer to the Wildlife Code of Missouri, available at permit vendors and on the Department's website.

Equal opportunity to participate in and benefit from programs of the Missouri Department of Conservation is available to all individuals without regard to their race, color, national origin, sex, age or disability. Complaints of discrimination should be sent to the Department of Conservation, P.O. Box 180, Jefferson City, MO 65102, or U.S. Fish & Wildlife Service, 18th and C Streets NW, Washington, D.C. 20240, Missouri Relay Center —1-800-735-2966 (TDD).

Season Overview:

Wild turkeys may be pursued, taken, killed, possessed or transported only as outlined in this booklet.

Youth-Only Season: April 10-11, 2004

Regular Season: April 19–May 9, 2004

Season Limit: Varies by season; see pages 3 and 4.

Methods: Shotgun or longbow/compound bow

Valid Permits:

Resident Spring Turkey Hunting Permit	\$17
Nonresident Spring Turkey Hunting Permit\$145
Nonresident Landowner Spring Turkey Hunting Permit\$75
Youth Deer & Turkey Hunting Permit\$17

Shooting Hours: 1/2 hour before sunrise to 1 p.m. Central Daylight-Saving Time

SUNRISE AT JEFFERSON CITY, MO. Central Daylight-Saving Time

This table is for Jefferson City and points on the same longitude north or south. For locations east, subtract one minute from the table for each 13 1/2 miles (airline) of distance. For locations west, add one minute for each 13 1/2 miles. For example, St. Louis is 106 miles east; subtract 8 minutes; Kansas City is 133 miles west; add 10 minutes. Or for the sunrise and sunset times anywhere in the United States, see the U.S. Naval Observatory web site: <http://aa.usno.navy.mil/>

Youth-Only Spring Turkey Hunting Season

Who May Participate:

The youth hunter must be:

- a Missouri resident
- age 15 or younger on season opening day

Season Dates: April 10-11, 2004

Shooting Hours: 1/2 hour before sunrise to 1 p.m. Central Daylight-Saving Time

Valid Permits:

Either:

- a **Youth Deer & Turkey Hunting Permit**, if ages 6-15. While hunting, the youth must be in the immediate presence of a properly licensed adult who has a valid hunter education certificate card; see below for more details.

Or:

- a **Resident Spring Turkey Hunting Permit**, if age 11-15 and hunter education certified.

Note: Residents age 15 or younger who are the immediate household members of qualifying resident landowners (see "Definitions," page 5) may take a turkey on the landowner's property during the youth-only spring season without purchasing any permit, but they must abide by season dates, methods, limits and tagging/checking procedures.

Season Limit: One male turkey or turkey with visible beard. **See restrictions below:**

- Youths who take a turkey on a **Youth Deer & Turkey Hunting Permit** may not also harvest another bird during the regular spring turkey season.
- Youths who take a turkey on a **Resident Spring Turkey Hunting Permit** may harvest a second bird, but not until the beginning of the second week of the regular season. This is because *the bird taken during the youth-only season counts as the first bird for the first week of the regular season.*

Methods: Same methods and restrictions as during the regular spring turkey season. See "Methods" on page 4.

Safety Sticker Requirement: Same as during the regular spring turkey season. See "Safety Sticker Requirement" on page 4.

Tagging & Checking: Same as during the regular spring turkey season (see "Tagging & Checking" on page 4), except **not all check stations will be open during the youth-only spring turkey hunting season.** Carefully review the list of check stations on pages 7-10.

Youth Deer & Turkey Hunting Permit

The Youth Deer & Turkey Hunting Permit, \$17, is available to all youths age 6 through 15. During the permit year, it allows **resident youths** to take one male turkey or turkey with visible beard during *either* the youth-only spring turkey season or the regular spring turkey season, *and also* one turkey of either sex during the fall firearms turkey season. **Nonresident youths** may participate in the regular spring and fall turkey seasons, but *not* the youth-only spring season. The permit also is valid for one deer during the fall firearms deer season.

Note: Youths hunting with this permit are not required to be hunter education certified; however, they must be in the *immediate presence of a properly licensed adult who has a valid hunter education certificate card.*

- "Immediate presence" means close enough for normal conversation, without shouting.
- "Properly licensed" means a valid filled or unfilled spring turkey hunting permit.
- "Adult" means someone age 17 or older.
- "Valid hunter education certificate card" means the adult must be hunter education certified, regardless of the adult's age. **Note:** Resident landowners born before Jan. 1, 1967, accompanying youths on the landowner's property are exempt from the hunter education requirement.

Youths who purchase a Youth Deer & Turkey Hunting Permit, but who turn age 11 later in the permit year and obtain hunter education certification, may surrender unused portions of their youth permit and purchase regular firearms deer and/or turkey permits for the fall seasons. However, there are no refunds for surrendered portions. Youths must abide by the appropriate season dates, methods, and tagging/checking requirements.

2004 Spring Turkey Hunting Season

Season Dates: April 19–May 9, 2004

Shooting Hours: 1/2 hour before sunrise to 1 p.m. Central Daylight-Saving Time

Valid Permits: Resident or Nonresident Spring Turkey Hunting Permit, Nonresident Landowner Spring Turkey Hunting Permit, Youth Deer & Turkey Hunting Permit; Farm Tag

Permit Restrictions: A hunter education certificate is required for hunters born on or after Jan. 1, 1967, except for those hunting with a Youth Deer & Turkey Hunting Permit. See box on page 5.

Season Limit: Two male turkeys or turkeys with visible beard may be taken during the season, with the following restrictions:

- ▶ You may only take one turkey during the first week from April 19-25.
- ▶ If you do not take one during the first week, then you may take two during the second or third week from April 26-May 9, but you may not take them both on the same day.

Any hunter who kills or injures a turkey must make a reasonable effort to retrieve and include it in their season limit, but this does not authorize trespass. It is a violation to wantonly leave, abandon or waste commonly edible portions of game.

Methods: The following are allowed during the spring firearms turkey hunting season:

- ▶ a shotgun with shot not larger than No. 4
- ▶ a longbow or compound bow. Hand-held string releasing devices, illuminated sights, scopes and quickpoint sights are allowed.

The following are prohibited:

- ▶ shotguns holding more than 3 shells in magazine and chamber combined
- ▶ shot larger than No. 4 (in use or in possession)
- ▶ a bow fastened to a stock or other device that maintains the bow in a drawn position
- ▶ any sighting device that casts a beam of light on the game
- ▶ use of dogs, recorded calls or live decoys
- ▶ use of bait, which includes grain or other feed placed or scattered so as to attract turkeys.

In 2003, youth hunters took 3,660 birds during the youth-only spring turkey season.

An area is considered baited for 10 days even after complete removal of the bait. A hunter can be in violation even if they did not know an area was or is baited. It is illegal to place bait in a way that causes others to be in violation of the baiting rule.

Safety Sticker Requirement: All hunters using a shotgun must affix the “Be Safe” sticker to the receiver of their gun so it will be in their line of sight when shooting. The sticker must be maintained on the gun while hunting. Stickers are available wherever permits are sold.

Tagging & Checking: Anyone who kills a turkey must immediately separate the transportation tag from their permit and attach it to the turkey. See illustration on page 12.

The transportation tag must remain on the turkey until it has been submitted with the permit by the hunter who killed the game at an established checking station as outlined below.

Turkeys must be checked:

- ▶ by the hunter who killed the game
- ▶ in the county where taken or an adjoining county
- ▶ with head attached and plumage intact
- ▶ between 7 a.m. and 3 p.m. Central Daylight-Saving Time **on the day taken.**

Note: Only the hunter who kills the game may possess or transport turkeys until they have been checked at an established checking station. After checking, turkeys may be possessed and transported by anyone, but *must* be labeled with the full name, address and permit number of the taker.

Resident Landowner/Lessee Privileges:

Qualifying resident landowners may take turkeys on land they own in accordance with spring turkey hunting season dates, methods and limits without purchasing a Spring Turkey Hunting Permit. Qualifying lessees have the same privileges on land they lease and live on. See “Definitions” on page 5 for landowner and lessee qualifications.

Immediately after taking a turkey, all resident landowners and lessees must tag the bird with their full name and address and submit it at an established checking station as outlined in “Tagging & Checking” on page 4.

Definitions:

Resident landowner: Any Missouri resident who owns at least 5 continuous acres, or members of his or her immediate household. In the case of corporate ownership, only officers of the corporation can qualify.

Lessee: Any Missouri resident who resides on at least 5 continuous acres owned by others, or members of his or her immediate household.

Nonresident landowner: Any resident of another state who owns at least 75 continuous acres in Missouri, or any member of his or her immediate household. Corporate ownerships do not apply under this definition.

Immediate household member: Someone, related or unrelated, who has lived in the home with a qualifying landowner or lessee for at least the last 30 days. Family members who live elsewhere do not qualify.

Hunter Education Requirement

All hunters born on or after Jan. 1, 1967, except those purchasing a Youth Deer & Turkey Hunting Permit, must complete an approved hunter education program and display their card before they can purchase a firearms turkey hunting permit. They do not have to show their card if certification can be verified through the permit vendor's computer terminal. A Missouri Conservation Heritage Card with a hunter education number is an acceptable hunter education certificate card. A person must be at least 11 years old to receive hunter education certification. Those under age 11 may not purchase regular firearms deer or turkey hunting permits.

Anyone using a turkey call to assist another hunter must be properly licensed with either a filled or unfilled spring turkey hunting permit.

Nonresident Landowner Permits and Privileges

Nonresidents who own land in Missouri may apply to purchase a Nonresident Landowner Firearms Turkey Hunting Permit valid for the spring season for \$75. The nonresident landowner's immediate household members (see “Definitions” above) also may be eligible. To qualify, land must be:

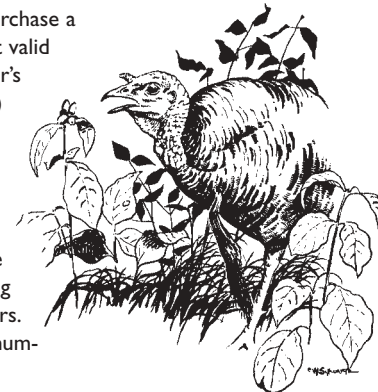

- ▶ at least 75 acres
- ▶ in one continuous piece

How To Apply: Complete and submit a *Nonresident Landowner Deer & Turkey Permit Application* form, available at Conservation Department regional offices or by calling (573) 522-4115, ext. 3880 during normal business hours. Landowners must provide proof of landownership and number of acres owned.

Application Deadline: March 5, 2004. Applications received after that date may not allow enough time for processing of application and purchase of permit. We will accept applications after March 5 but cannot guarantee delivery of permits in time for opening day.

Note:

- ▶ Nonresident Landowner Firearms Turkey Hunting Permits are valid *only* on the land for which they are issued
- ▶ All nonresidents must abide by spring turkey hunting season dates, methods and limits.
- ▶ Nonresident landowners must use the transportation tag portion of their permit to tag their bird and submit it at an established checking station as outlined in “Tagging & Checking” on page 4.

Hunting Safety is No Accident

According to the National Safety Council, hunting is a safe activity. In fact, hunting results in fewer injuries per 100,000 participants than do many other sports, including cycling, bowling, golf and tennis. However, you must always use good judgment and take responsibility for your actions.

If you are involved in a firearms-related accident, the law requires that you identify yourself and render assistance. Failure to do so is a class A misdemeanor.

There were four firearms-related accidents during the 2003 spring turkey hunting season. All were non-fatal. As you will see, simple carelessness can result in serious injury. Don't make the same mistakes these hunters made.

April 26, 6:45 a.m.—A solitary hunter was walking down a field road on his father-in-law's land toward the sound of a gobbling turkey. As he walked along the section of road that passed within 5 feet of the southern fence line, he was shot in the head. He screamed for help, but no one responded. Fortunately, he was able to return to his vehicle and drive to the hospital. The shooter heard the victim scream, but left the area. An investigation revealed the shooter's identity, and it's recommended that he lose all hunting privileges for four years.

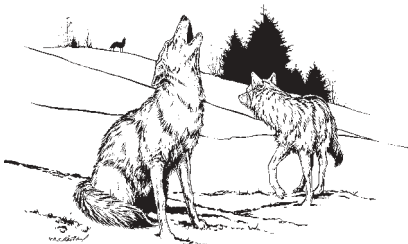

April 26; 7:50 a.m.—A father and son walking on a logging trail stopped periodically to call turkeys. Another hunter, hearing calling and seeing movement, aimed his

shotgun and disengaged the safety. When he identified the father and son, he moved to point his shotgun away but it discharged, striking the father in the head and chest. The shooter was cited for hunting without a permit, and it's recommended that he lose all hunting privileges for 12 years.

April 26; 9:05 a.m.—Two hunters set up close to some gobbling turkeys on private land. One then noticed two other hunters about 40 yards away and whispered to his partner that they should move. When the first hunter began to slowly get up, he saw the smaller of the other two hunters raise his shotgun and fire, striking the first hunter in the head and neck. He yelled, and the other two hunters, a father and son, came to his aid. The son said he saw movement and fired at what he thought was a turkey's head. The son has lost all hunting privileges for two years.

May 6; 6:10 a.m.—Four friends hunting on private land split into two groups to hunt on either side of a gravel road. The pair on one side of the road separated to hunt in different areas. While walking through the woods, one hunter saw a gobbler about 25 yards away. He raised his shotgun and fired, striking his companion in the head. After administering first aid he called the other two hunters and they transported their friend to the hospital. The shooter has lost all hunting privileges for two years.

**BE
SAFE**

Coyotes may not be chased, pursued or taken from April 1 through May 9.

The National Wild Turkey Federation collects and maintains information on record turkeys. For Missouri records, contact:
